

Student Learning Experienced Differently
Cumberland County Schools' Non-Traditional Instruction Program

Name: _____

Day Two

SLED DAY # — GRADE LEVEL: THIRD

A TOTAL OF THREE ACTIVITIES SHOULD BE COMPLETED EACH DAY
**** PLEASE CIRCLE THE 3 ACTIVITIES THAT YOU HAVE COMPLETED AND RETURN WITH THIS SHEET ****

Math Whizz

Complete 2 lessons with assessments (2 Progressions). Assessments are on the blue screen on Math Whizz.

Math Whizz Website: www.whizzz.com

Lexia

Complete 4 units on Lexia or 2 combos on Reading Plus.

Lexia website:

<http://www.lexiacores.com/>

Reading Plus:

<https://student.readingplus.com>

Math

Pretend you have \$20.00 to spend at the grocery. Make a list of 5-7 items including the price of the items.

Answer the following questions:

What will be the total cost of your items? How much change will you get back?

REMEMBER, your items must total less than \$20.00.

Leader in Me

Making Good Choices

WORK: Read the following paragraph about Sam. Make a list of chores on a sheet of paper that you would have to do if you were Sam. Did Sam put first things first? Explain your answer.

Sam was invited to a birthday party at Ralphies on Friday. In order to attend, his mother told him he must complete all of his chores. All week long, Sam decided to play video games instead of working on his chores. When Friday came, Sam had not completed his chores.

Special Class Paper (blank or lined), Pencils, & Crayons or coloring pencils

1. Draw diagonal lines across your paper from corner to corner.
2. Draw a vertical line down the center of the paper.
3. Draw a horizontal line across the center of the paper.
- * You should have a series of triangles. 4. Draw lines (curved or straight) about 1/2 inch apart, between the triangles formed by the lines previously drawn. If you draw curved lines alternate the direction within each triangle.
5. Select 2 colors.
6. Color in one small triangle. Going outward color the next section with the other color. Alternate colors until you have finished.
7. Next section do the same thing but start with opposite color.

Writing/Art

You will need a piece of blank or lined paper or you can use construction paper. On one side, draw a picture of what you will look like in one year and write a paragraph describing your accomplishments. On the other side, draw a picture of what you predict you will look like in 30 years. Then write a story including the answers of these questions. • What will your job be in 30 years? • Describe your job. • Where will you work at? • What steps will you take to qualify for your job? REMEMBER: A STORY HAS A BEGINNING, MIDDLE AND AN END. Finally, using the answers from the questions above, draw "your future" so you can "begin with the end in mind"

Spelling

Rainbow write or write each spelling work 3 times each.

Write a short story using at least 10 spelling words.

Make sure that your story has a title, beginning, middle, and end.

Remember a good

paragraph must contain 4-5 sentences.

Reflex Math

Work on improving your multiplication and division fluency by filling in your green dot on Reflex Math.
