

SLED DAY #9

<p>ONLINE OPTION Students will log into IXL (www.ixl.com) and complete THREE new lessons to 85% in one of the following subjects of their choice:</p> <p>Lessons must be completed on Grade Level.</p> <p style="text-align: center;">Language Arts Math Science Social Studies</p>	<p>ENGLISH</p>  <p>You look out of the window and this is the scene that you see. You decide to email your cousin who lives in Hawaii, and describe to him or her exactly what you see. Be sure to use descriptive words to allow the reader to visualize what you are looking at. Write at least two paragraphs (5-7 sentences).</p>	<p>SOCIAL STUDIES You have been asked to fill a time capsule with at least five objects to be opened 300 years from now. You should choose objects that best symbolize our culture and society of 2018/2019. Include a rationale (justification, grounds, raison d'être, validation, basis, reason) that explains how that item fits and why it is one of the best items for the capsule. Be specific!! Tips: <u>The time capsule can be any size, so items can range from a ball to a building. Consider things that make America unique, and include items that best represent the uniqueness. Think of good/bad parts of our society, successes/failures, etc, and come up with objects that symbolize those ideas.</u></p>
<p>MATH</p> <p>Chris has \$59.75 to spend on some paintball supplies. A new co2 tank is \$21.95, case of paintballs \$15.49 with 15% off coupon, pair of gloves \$8.89, and a cleaning kit for \$6.95. Will Chris have enough money to buy his supplies, tax is 8%?</p> <p>Jim is building a house that is 40x34 feet. He also needs to have a garage built that will hold two cars. This garage is 20x24 feet. In a couple months he plans on having a pool set up at his house that has a radius of 12 feet. The house is going to cost him \$84 a foot, the garage is \$42 a foot and the pool cost \$4.45 a square foot to have put up. What is the total cost for him to build all three things?</p>	<p>SCIENCE</p>  <p>Scenario: Scopes Coffee is designing a coffee mug that keeps liquids hot. The research department tested several different materials for the ability to keep a normal-sized cup of coffee hot the longest amount of time. The testing-room temperature is approximately 4 degrees Celsius. Prompt: Write a scientific explanation to justify the selection of the material used to keep the coffee hot. Use CER prompt.</p>	<p>RELATED ARTS Choose one of the following.</p> <p>Research the nine elements of digital citizenship and define each of the elements. Please provide a definition and an example for each.</p> <p>Or</p> <p>On a separate sheet of paper discuss the differences in a digital native and a digital immigrant. Please complete one full paragraph outlining the differences.</p>
