

**SLED DAY #6**

<p><b>ONLINE OPTION</b> Students will log into IXL (www.ixl.com) and complete THREE new lessons to 85% in one of the following subjects of their choice:</p> <p>Lessons must be completed on Grade Level.</p> <p style="text-align: center;"><b>Language Arts</b> <b>Math</b> <b>Science</b> <b>Social Studies</b></p>	<p><b>ENGLISH</b> Use your imagination, and imagine that you have discovered a secret room in the school that no one else knows about. Write about what you would do in this situation. (Who would you tell?, Where is the room located?, What would you do in the room?, etc.) Be sure to include the following aspects of figurative language in your assignment; <i>simile, metaphor, personification, hyperbole</i></p> <p>Be sure to write at least two to three complete paragraphs (5-7 sentences in each paragraph)</p>	<p><b>SOCIAL STUDIES</b> On a sheet of paper answer the following question, in a paragraph. Most ancient civilizations developed along a river. Explain why they would need to be next to a river, and give a specific example from one of the four river valley civilizations we have studied in class.</p> <p style="text-align: center;"><b>OR</b></p> <p>Watch CNN10, a news channel, or read a news article in the newspaper or a magazine. Provide a summary about the current events you learned about. Will any of the current events affect you or not? Explain. (Write at least two paragraphs).</p>
<p><b>MATH</b></p> <p>Walter bought some pigs from Chris for \$ 2,775.00. His lot will hold 50 pigs. At this point it is 63% full. How many pigs are in the lot and what did he pay for each pig? Also how many more pigs does he need?</p> <p>Byren caught a fish that was 45 inches. If 38% of the fish's weight was 18 pounds, what was the total weight of the fish?</p>	<p><b>SCIENCE</b></p>  <p><b>Scenario:</b> Wrecking balls were common sights in the 1950s and 1960s and used to demolish large buildings. A wrecking ball is like a pendulum. The massive metal ball is same as a bob on a pendulum. It can be held in position by a chain directly above a structure and then released in free fall.</p> <p><b>Prompt:</b> Write a scientific explanation to describe the energy changes that occur while the pendulum is in motion. Use CER prompt writing.</p>	<p><b>RELATED ARTS</b> Choose one of the following.</p> <p>Research and define the following terms that apply to entrepreneurship:</p> <ul style="list-style-type: none"> <li>● Opportunity Recognition</li> <li>● Corporation</li> <li>● Small Business</li> <li>● Entrepreneurship</li> </ul> <p>Or Write 3 paragraphs describing what you believe the difference is between a corporation and a small business.</p>

**Activities Based on Student Prior Knowledge**
