**ENGLISH**

**Gatsby:** A eulogy is a speech or writing in praise of a person, usually in honor of a deceased person. Write a eulogy for Gatsby.

**SPANISH I/II**

**Future Plans**

Tell what you and your friends or family plan to do after the Coronavirus hysteria ends, perhaps in the summer (verano). We are going to form we may or may not have covered in class. "I am going to..."

"voy a..." — "I am going to..."

"Vamos a..." "We are going to..."

This form is *usually* followed by an unconjugated verb (ending in ar, er, ir).

Write 3 sentences in Spanish about what you are going to do (voy a...) and 3 sentences about what you and your family or friends are going to do (vamos a...)

**SOCIAL STUDIES**

The presidential election of 2000 was perhaps the wildest in US history. Although Al Gore received slightly more popular votes than George Bush did, Bush won the election because he garnered more electoral votes, or votes in the Electoral College. This was not the first time the candidate with the most popular votes actually lost. Do you think it is fair for a candidate with fewer popular votes to win the presidential election?

**MATH**

Fill in the blanks for the following problems. Write an explanation of how to find area and circumference. Pizza hut offers three sizes of pizza. The small, medium and large pizzas have diameters of 7 inches, 9 inches and 11 inches.

**Question 1:** What is the circumference of **each** of the sizes of pizza?

**Question 2:** What is the area of **each** of the sizes of pizza?

**ELECTIVE (CHOOSE ONE THAT FITS YOUR CURRENT PATHWAY)**

**Culinary:** Prepare a homemade dinner for your family. Try to avoid using packaged ingredients.

Write a paragraph answering the following questions:

Describe how your home cooking lab went. Was there anything that you struggled with, what was the hardest part, easiest/best part? Did your family enjoy the food you prepared? Explain why or why not. What would you do differently the next time you prepare this recipe?

**Agriculture:** Your tractor broke down and was in the shop for 4.5 days. Mechanics worked on it for 23.2 hours at \$49 per hour. They replaced \$1,905.72 worth of parts. You lost \$16 per hour by not having the use of the tractor. You work a 12-hour day.

- How much did the labor cost?
- What was the repair bill (labor and parts)?
- How much did you lose by not having the use of your tractor?
- What did the breakdown actually cost?
