

August 6, 2014

Dear Students & Parents/Guardians:

Welcome to the Vocational Agriculture Department at Cumberland County High School! It's time to start yet another year of school. I will be teaching all Agriculture Classes and will also be the sponsor for FFA. FFA is a wonderful organization that has many opportunities for all those who are involved.

In the classes that I will be teaching this year, we will be working in the classroom, lab, and in the greenhouse. The greatest benefits in taking Agriculture Classes are the hands-on application that is taught. However, before students gain access to the lab, they will be taught correct safety procedures and be required to pass all safety exams.

**Students will be working with hand tools, power tools, etc. in the lab and it's extremely important that all involved realize the importance of safety.**

Should you have any questions or concerns, please do not hesitate to call me here at school or at home. I believe, as a group we can make this class interesting and enjoyable. I look forward to working with you and your child. Please sign the form below given permission for your son/daughter to work in the lab under the conditions I have set forth.

Sincerely,

Mr. Lannie S. Willen

---

I give my child permission to use the equipment that will be used in laboratory at Cumberland County High School 2014-2015 School Year.
